## Unbelievable offer for nature lovers .....

### YALA NATIONAL PARK

one of Sri Lanka 's premier eco tourism destinations, lies 24km northeast of Tissamaharama and 290km from Colombo on the southeast coast of Sri Lanka, spanning a vast 97,878 hectares over the Southern and Uva Provinces. The vegetation in the park comprises predominantly of semi-arid thorny scrub, interspersed with pockets of fairly dense secondary forest.

Small patches of mangrove vegetation also occur along the coastal lagoons. The park is renowned for the variety of its Wildlife (most notably its many elephants) and its fine coastline (with associated coral reefs). It also boasts a large number of important cultural ruins, bearing testimony to earlier civilizations and indicating that much of the area used to be populated and well developed.

### BIRD WATCHING

With more than 450 bird species comprising of endemic, resident and migrants, Sri Lanka is a fascinating birding destination for viewing a great variety within a relatively short period. Starting from wet zone jungles to the dry zone wetlands our birding tours provide an excellent chance of observing a wonderful diversity of Sri Lankan avian fauna with the guidance of professional birdwatchers. Due to its small size the visitor can comfortably visit virtually all of the good sites in the country in the space of two weeks. The visitor with limited time can judiciously combine the sites for endemics with sites of general wildlife interest and archaeological/cultural sites.
